

The Preschool Survival Guide

While each phase in a child's life presents its own highlights and challenges, there's something about the preschool phase that has us reeling from the duality of it all.

Your kid can now communicate their thoughts and needs more clearly, but with the burst of vocabulary comes head-turning meltdowns.

Your kid's palate may have diversified some, but they've still got a taste for the trusted chicken nugget.

Your kid understands what the rules are a bit better, but that doesn't mean they're not going to continue to push boundaries to see if those rules hold.

It's the in-between that can leave you feeling weary because while it's nice to know your kid is learning and growing right before your eyes, you're faced with the realization that there's still so much to teach your kid and learn for yourself.

But if there's anything that ignites a spark of hope it's the knowledge that none of this hard yet rewarding work was meant to be done alone. That's what community is for. That's what relatable content is for. And that's what we're for. Anything we can do to share the burden of responsibility parents face each day while reassuring you that you're OK, your kids are OK, and that you'll make it to the other side is what we'll continue to do day after day. We see you, we're right here for you, and we support you.

For the first-time preschool parent...

One Question Your Preschooler Is Asking

Every kid at every phase is asking a unique and fundamental question. How you answer that question for your child will communicate the one thing they need most: Love.

You have approximately 936 weeks from the time your child is born until he or she graduates from high school. It goes by fast, and kids change and grow quickly. It's as if they shift or move on just as you're starting to figure them out. It all makes the responsibility to shape a child's faith and character feel overwhelming.

The Prechool Phase Guides simplify what parents need to know about each phase of a kid's life and give them the opportunity to discover more about their children—so they can make the most of every phase.

Discover...

- What's changing about your kid over the next 52 weeks.
- The 6 things your kid needs most.
- 4 conversations to have in this phase.
